

CORPORATE BROCHURE

experts in
CONCRETE
STRUCTURES

Fjord Link Frederikssund Bridge | Denmark

about us

VILAPLANO, the right choice for partnership in all kind of construction projects. Expert in the reinforced concrete area, with a know-how gained in 30 years of experience since its foundation in the most complex projects either indoors or abroad.

Today *VILAPLANO* is present in international markets such as, Spain, France, Belgium, Denmark, Algeria, Saudi Arabia, Brazil, Panama, Costa Rica and Colombia, and has already worked in several other projects in countries like Angola, Guinea, Libya, Togo.

Owner of a human capital of over 700 skilled and highly trained employees in the design and implementation of formwork and industrialization and application of reinforcements, *VILAPLANO* offers a comprehensive service for the implementation of concrete structures. Our company also has the ability to operate under the regime of maintenance contracts (*Facility Services*), providing skilled manpower with proven experience for the Construction and Industry areas.

Driven by its own growth and the constant search for answers to the demands of its customers, *VILAPLANO* currently provides a Global response for the execution of Buildings and General Construction projects, independently and/or associated with its partners.

Corgo's Viaduct, Transmontana Highway | Portugal

our challenge:
be better doing more

vision

Be Better Doing More and *Boundless Commitment* are our Company's slogans and the scope of our action.

mission

Achieving our vision in a daily basis is the challenge of being better individuals and better professionals, guaranteeing us the success of our organization.

The mission also means doing more which leads to the constant growing of our business reaching more and better opportunities.

values

Dynamism – We challenge our employees to make daily decisions always aiming to achieve improvement. Dynamism is our goal as well as improvement, capacity of response and innovation.

Compromise – It is our priority to correspond to the expectations of our customers whenever we are chosen.

Dynamism & Compromise – In our perspective the combination of these values is linked to other important ones as: quality, professionalism, integrity, competence, accuracy, sustainability, innovation, entrepreneurship, solidarity and responsibility. They are essential to a company's commitment with a better world. They are the support and guarantee of our credibility and the loyalty of our clients.

In short, they are the basis of our success.

ISO 9001

Following the above, VILAPLANO has its own Quality Management System duly certified accordingly to the ISO 9001 standard for the development of "Services in Concrete Structures for Construction and Public Works"

services

- FORMWORKS
- STEEL REINFORCEMENTS
- CONCRETE POURING

(DAMS | ROTARY VALVES | PLANTS | FACTORIES)
- **MARITIME WORKS**
(PORTS | BRACES | DOCKS)

GLOBAL PRESENCE

Portugal | Spain | France | Belgium | Denmark | Algeria

VILAPLANO'S ACTIVITY INDICATORS

• recent turnover

• number of in-house employees

historical events

1986

After years of experience gained from working in the Construction field, the three Silva brothers set up their own company especially dedicated to the execution of Reinforced Concrete Structures.

Initially of only local nature in the north of Portugal, the company has since developed its technical expertise and know-how within the sector, having rapidly evolved to a national and, more recently, international organization.

Currently we are permanently established into 4 strategic geographic groups - **EUROPE**, **NORTHERN AFRICA**, **LATIN AMERICA** and **MIDDLE EAST** – counting with a wide range of national and international reference partners.

We are also working in several other temporary projects in countries as different as Libya, Togo, Costa Rica, Angola and Guinea.

2004

New corporative image

2006

First international experience: construction of 99 houses in the Canary Islands

2009

VILAPLANO begins its internationalization process by entering the **ALGERIA** market, which holds a major role within MENA's Construction industry.

							
First Road works: section Paredes - Penafiel - A4 Highway, Portugal	First large commercial building: Gaia Shopping, Portugal	First Stadium: Braga Stadium, Portugal	First cultural building: House of Music, Oporto, Portugal	First metro project: Oporto's Metro, Portugal	Holy Trinity Cathedral, Fatima's Sanctuary	Lactogal's Factory, Portugal	Bridge over Mondego River, Coimbra, Portugal
